

*Happy  
Mother's  
Day*

Still not sure what to get the mom in your life for Mother's Day? We've got a few ideas. Moms are on the go a lot – why not try to help make their daily driving a little more enjoyable!

#### **#1 Back of Seat Organizer**

For the mom who thrives on organization, extra storage in her vehicle will go a long way. No more water bottles rolling on the ground, misplaced sunglasses, or rouge kid's toy shoved into the back seats.

#### **#2 Temperature Controlled Travel Coffee Mug**

For the mom who needs to be well-cafeinated, this gift will keep her from spending half of her day reheating her coffee and the other half forgetting it in the microwave. These mugs are great for moms on the go because they will keep her coffee at her ideal temperature throughout the ENTIRE day!

#### **#3 Emergency Safety Kit**

For the mom who likes to be prepared for whatever the day will throw at her family. These can be purchased pre-assembled, or you can DIY it & fill the kit with extra goodies that may be helpful in specific ways to the mother in your life.

#### **#4 Phone Charging Dock**

For the mom who relies on her GPS. Phone batteries can get drained fast, and when kids are constantly going to new places, it can be hard to navigate without a little help. This gift will help ensure Mom's phone won't die & leave her stranded in an unfamiliar part of town.

#### **#5 Handheld Vacuum**

For the mom who is sick of seeing crumbs and dirt everywhere! A handheld vacuum adds great ease to keeping a vehicle nice and tidy. A bonus is that it can be a help in the car and the home!

We hope these ideas have given you some inspiration! To help add to the celebration of this day we made a playlist dedicated to mothers, check it out on Spotify – [CLICK HERE](#).

To all of the moms out there, have a very happy Mother's Day!
